Team Stand Sport Seating

Portable outdoor/indoor team seating is now available for your team's sports events - home or away. Century's folding three-row bleachers provide secure seating for either team or spectator applications during sports events.

Unique to Century's Team Stands is a standard fast-fold feature that permits the stands to be quickly folded flat for repositioning, transport, or storage. This feature significantly increases the utility and flexibility of these stands compared to conventional seating.

Team Stands feature aluminum construction, making them suitable for either indoor or outdoor events, plus activities involving wet clothing and apparel.

Team Stand Applications

Team Stand seating is ideal for use on multi-sports fields, tracks and stadiums, ball fields, competitive swimming pools, and other applications where seating flexibility is desired.

A choice of seating sizes and optional features allows you to select the seating configuration that best serves your applications.
