More Sizes and Configurations - Don't see what you have in mind? More ticket booth sizes along with custom configurations are available. For more details contact us with your requirements.

Optional Features

Since not all events or operational requirements are the same, a selection of options are available to outfit base portable ticket booths to support individual event needs. Below, you will find a list and descriptions of some of the more popular and frequently selected optional features.

Electric System

Electric package includes ceiling mounted LED lights, under counter receptacles, and power cord.

Air Conditioner

Roof mounted air conditioner cools ticket booth interior. A heat strip provides warm air for use during colder months.

Cash Drawer

Key locking counter mounted cash drawer with removable (5) bill and (5) coin insert, and opening bell.

Exterior Counter

Removable exterior stainless steel sales counter mounts under sales window offering customers a place to set personal items.

Powered Communicator

Replace the passive speaker port with a powered communication port, electrically amplified speaker, and microphone for improved communications with customers.

Pass-Thru Cover

Removable stainless steel pass-through window cover secures transaction pass-through, key locking.

Aluminum Awning

Double-wall aluminum awning mounted on ticket sales window offers sun and weather for both patrons and employees when open, and window protection plus additional security when closed.

Roll-up Shutter

Aluminum slat shutter rolls into overhead storage compartment. Shutter offers window protection and additional security when closed.

Castor Package

Castor Mobility Package includes four heavy-duty 8" diameter castors allowing the ticket booth to be easily moved around your facility on hard-surfaced areas. Castor set of four.

Exterior Graphics

Custom graphics provide an individual identity for your ticket booth. Graphics can range from your organization's logo to a full graphics wrap.

Lighted Signs

Provide extra visibility and promotion for night time operations with a custom polycarbonate sign panel with LED backlighting mounted above sales windows.
